An aging population and increased life expectancy mean that society in the near future will be far less youth-centred.

Talk about the repercussions of this change for social services like the health system, companies and shops and the future of society.

You have up to 5 minutes to prepare your talk. You can take notes or make a brief plan of what you are going to say. Talk to the examiners for about 3 – 4 minutes. You can use your notes during your talk but not read them out loud. At the end of your presentation, the examiners will ask you a couple of questions. Your production will be recorded.
